

Edit Underlying / Edit Option

Depending on the type of instrument you want to edit (Edit) The Edit window is different, if you edit a futures or an underlying the window is named Edit Underlying, if you edit an option the window is called Edit Option .

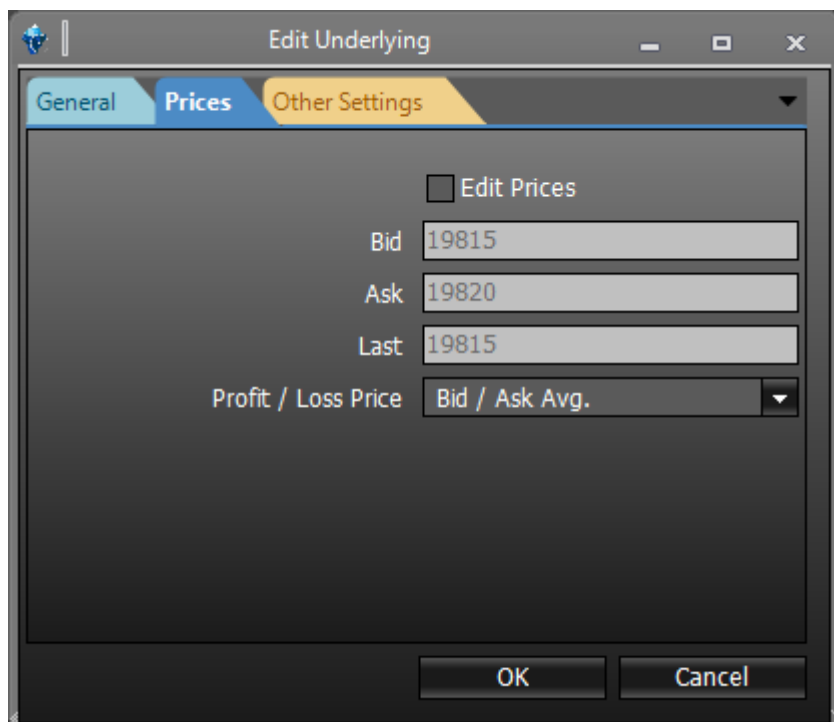

All changes that will be made in Edit Option and Edit Underlying will be saved ONLY for the current strategy. If you want that your changes are saved permanently the change must be made in [Symbol Manager](#).

It is recommended to make changes to the parameters that are in Edit Option and Edit Underlying only if you are sure of you are doing
