

Iceberg Workspace

The “Workspace” is the set of open windows at once in Iceberg® with relative position. When you save a Workspace, strategies and portfolio opened in that moment are saved together.

Also in Iceberg is active the autosave function of beeTrader, then every 5 minutes is saved the beeTrader session that includes Iceberg with all applications that are current open. Every day it creates a new autosave file is automatically saved in the folder C:\Users\username\Documents\PlayOptions.it\beeTrader\Workspaces\Autosave.
